**...LIVE CHICAGO BLUES MUSIC** has that special sound that never fails to captivate an audience and bring out emotions— Blues can be laid back and groove, it can swing, and it can be house-rocking party music!

The music always makes the event. We will work within your budget to provide a customized musical experience tailored to meet the needs of your next occasion.

As the event begins and guests arrive, we can start off with easy background music or boogie-woogie jazz-blues piano. Gradually or all at once, we can build to combos ranging from an acoustic duo or trio all the way up to a 9-piece stage-show band complete with a full horn section and even guest vocalists.

Our top priority is to create the perfect atmosphere from beginning to end of every event. Some clients want their guests to comfortably network and talk above soft background music. Others want to see their guests let loose on the dance floor. Some want a combination of both moods or something in between. We can handle any situation, and we always provide a great variety of music that is certain to please everyone.

Our clients and event planners are always satisfied because we are consummate professionals, we are easy to work with, and we always strive to ensure a successful and smooth event.
